Dear Folks

This WOPR is a horrible idea. Lets protect what little old growth is left. Lets not build ↑ more & have ↑ clearcuts. Lets follow the Clean Water act & protect endangered species. This for forest safety & welfare, not clear cut for mills & logging. ATV's already destroy land, lets not add more to be destroyed. Protect old growth for your & my children & the planet. 1 old growth tree removes more carbon than hundreds of seedlings. Conserve Protect Enjoy.

thank you

sincerely

Chris Mattheny
