Dear Western Oregon BLM,

✓ 14 9/28/07

Dear Sirs;

I am shocked to learn that the BLM would open millions of acres of Old Growth forests and streams to logging. After all these years, you must realize that this is terrible for the land, the streams and the animals who live there!! There are areas that need to be saved for the next generations to say nothing about the endangered wildlife that depends on them

Sincerely,

Name: Frances Stevenson
