To Whom it May Concern,

I am writing this letter in PROTEST of the proposed OHV area on McMullen Creek Road in Selma. When we first heard of this news, I just couldn't believe it. We moved here 3 years ago from the San Fransico Bay Area. We were so taken by the beauty of the area, we had to stay! I still have to commute 1 hour each way to work. The peace & the quietness, and the nature out here make it well worth it. finding out that we could have OHV area all around us, is of Incredible concern to my family, neighbors, and the wild life around us. The noise of Off road Vehicles riding down McMullen Creek Road. Garbage, noise & air pollution, these are things I've already experienced.

To have, what we moved here for to be slowly slipping away would be a sad thing. But to have it ripped away would be a Travisty

Sincerely,
Selma - McMullen Crk Rd Property owner
