You were right yesterday, still another request from us.

Richard Goekin, our political Assist Solicitor with whom Earl has been emailing revisions of the NE Canyons and Seamounts recommendation, has two requests for clarification within that section that seem too minor to bother Earl with. Can you get someone at NMFS to review - each seems likely to need only a few sentences. They are both on page 2 of the attachment, clearly marked.

Unfortunately he needs it by COB today. Unrelated, give me a call if you have a chance.

B. An Analysis of the Restoration of Commercial Fishing Within the Monument.
