---

I believe coding is completed for "PDFs July 20 Uploads".
I have taken the spreadsheet that I created on Google Drive, converted it to Excel, and attached it to this email. If anybody has any others please pass them along.
Best regards,
John

> I've checked, and many of the attachments are in pdf format - see cluster 192, over a thousand individual comments in a pdf, one page per comment, 4 sets of these. The comment that shows in the individual record when you open the cluster says how many comments are attached, at least in this cluster.

This is a spreadsheet claiming 25,643 individual names and addresses. Coded as (1) Mass Mailing. Just bringing to Randy's attention if needed.

Dataset: PDFs July 20 Uploads

Same exercise. Looking for mass emails and creating an annotation with the number.
