PROJECT WORK PLAN
PROJECT: COOS BAY WAGON ROAD LANDS SECRETARIAL PILOT

COQUILLE RIVER BASIN WATERSHED RESTORATION

A. DESCRIPTION OF PROJECT

The Coquille Indian Tribe (CIT) will assist the BLM in the development and implementation of an upland forest ecosystem restoration project proposed on Coos Bay Wagon Road Lands in Coos County. This project is known as the CBWR Lands Secretarial Pilot. This work is to include providing technical expertise on an interdisciplinary team, conducting public meetings and field tours to the project location, conducting biological surveys, preparing biological assessments for Endangered Species Act Section 7 consultation, project design and layout, and scientific oversight and monitoring.

B. ACCESS/LOCATION

The project location is within T28S, R10W, Section 17, and accessible by all-weather roads. No special access needs are required.

C. OBJECTIVE

The objective of this pilot is to improve watershed health within the Coquille River Watershed by working together to share resources for the development of strategic management of the Coquille River Watershed.

D. PROJECT WORK PLAN

1. The CIT agrees to:

   a. Provide technical expertise and support to an interdisciplinary team (IDT).

      (1) Provide project leader for managing IDT development of an ecosystem restoration project ensuring all BLM land use plan and legal requirements are met.

      (2) Provide IDT resource reports for cultural, wildlife, and timber in accordance with the requirements schedule developed jointly by the BLM and CIT.

   b. Conduct public meetings and field tours to the project location.

      (1) At a minimum conduct one public meeting and two field tours to the project location.

(2) The CIT will provide meeting facilities, transportation suitable for approximately 20 members of the public, and other supplies as necessary.

c. Conduct biological surveys.

(1) In consultation with the U.S. Fish and Wildlife Service (FWS), conduct spotted owl and marbled murrelet surveys and provide results of these surveys in report and map form.

(2) Conduct Red Tree Vole surveys according to approved protocols and provide results of these surveys in report and map form.

d. Prepare and submit to BLM a Biological Assessment (BA) for submission to the FWS to fulfill consultation requirements of Section 7 of the Endangered Species Act.

e. Provide forestry staff to assist BLM in project design and layout of the restoration project.

f. Provide scientific oversight and monitoring through a post project monitoring report with involvement of credible scientists in the fields of forestry, wildlife, fisheries biology, and water quality.

g. Develop and document details for the projects listed above as individual tasks to include specific information related to location, timing, and other details as necessary.

2. The BLM agrees to provide:

a. GIS mapping assistance when requested.

b. Access to past biological survey data and other resources information as necessary for the CIT to perform assigned projects.

c. Copies of all BLM laws, regulations, manuals, handbooks and policy documents to ensure all BLM requirements are met.

d. A third party facilitator for public meetings and tours.

e. BLM tree marking paint to CIT layout personnel.

f. Map of project pilot location.

E. PERFORMANCE SCHEDULE

1. The start work date is the date this modification is signed by the Grants Management Officer. All expenses incurred from May 15, 2011, are authorized for reimbursement.

2. The completion date of all tasks will be no later than September 30, 2012.

F. PROJECT COSTS

1. Project leader for managing IDT development of an ecosystem restoration project ensuring all BLM land use plan and legal requirements are met. $12,750

2. IDT resource reports for cultural, wildlife and timber in accordance with the schedule developed jointly by the BLM and CIT. $38,250

3. Public meeting and two field tours to the project location. The CIT will provide meeting facilities, transportation suitable for approximately 20 members of the public and other supplies as necessary. $3000

4. Spotted owl and marbled murrelet surveys and provide results of these surveys in report and map form. $18,000

5. Red Tree Vole surveys according to approved protocols and provide results of these surveys in report and map form. $10,000

6. Biological Assessment Preparation. $12,000

7. Project Design and Layout. $4,500

8. Scientific Oversight and Monitoring. $18,000

9. Total Project Costs: $116,500

G. PAYMENT

Payments shall be made as specified in Assistance Agreement No. L10AC20045, Section VI, Payments.
