Dear Western Oregon BLM,

✓ 23

I am writing to protest the proposal to open 1.7 million acres of old growth & streamside reserves to logging. This proposal shows little understanding of the value of clear streams & undisturbed forest to the overall health of the ecosystem in Western Oregon! Along with friends & family I have enjoyed many hours in the woods & along the shores of Western Oregon - please maintain these opportunities for Oregonians (and others) by cancelling this proposal. Help insure clean drinking water, stable land forms & the diversity of plant & animal life by stopping this proposal.

Sincerely,

Name:
