Sept. 15, 2007

BLM Administrator,

I am writing this letter in support of the recently issued draft of the Western Oregon Plan Revisions.

We have been residents of Jacksonville for the last sixteen years and have had many occasions to ride & observe riders in the Johns Peak area. I've also attended many meetings over these years listening to discussion on both sides of this land use issue. I can report that we have had many positive experiences as a family using this area for ATV and motorcycle use. I think it is a unique area and with special management by the BLM, future use as an OHV emphasis area can be ensured.

Thank you,

Pat Hardy
