Dear Western Oregon BLM, ✓ 72

Save the old growth, the WOPR will further destroy the forests. Old growth is miniscule now, compared to 150 years ago. It should be your responsibility to save our forests, not sell them off to the Timber Industry. The forests help regulate temperature and give off water vapor - forests (old growth, especially) - are crucial elements of our eco-system.

Sincerely,

Name: Evan DeSiena,

Address: 2137 W. 16th way
Eugene OR 97402
