We are writing to protest the WOPR 93 10/4/07
which will reduce property values + the quality
of life & the peace + quiet of rural residents.
It will affect clean water supplies & salmon
habitat, as well as other wildlife & plant habitat.
It will destroy some of OR's best remaining
ancient forests + ruin sustainable economies.
Also, it will increase global warming, the risk
of fires, + is illegal anyway? The NW
Forest Plan is a landmark agreement + re-
moving BLM forest would affect it greatly.
We should protect what's left of OR's old growth
heritage forests, + restore those that have been
degraded. It is a bad plan!!!

Stephen & Patti Graves, Brookings OR
