Dear BLM-WOPR off,

I strongly urge you to NIX Admin.'s push to undo protections for BLM-administered public forests.

It would: (1) ↓ the Quality of life, (2) ↓ peace/quiet (3), ↓ clean H_2O/salmon, (4) Destroy ancient forests/(5) wildlife/(6) plant habitat, (7) Ruin sustainable economies/(8) Northwest Forest Plan, (9) ↑ global warming & fire & (10) It's illegal!

You work for citizens! Not industry! Do your job! - Protect Our Public lands, waters & wildlife! Think long term - Our nature is priceless & precious & supports us all. Healthy nature = healthy humans.

Your attention to this must urgent matter would be much appreciated by all all present & future generations of all species.

Thank-you,
