Bureau of Land Management
Salem District
Winter 2015 Project Update

BLM
Salem District

The BLM manages more than 245 million acres of public land, the most of any Federal agency. This Land, known as the National System of Public Lands, is primarily located in 12 Western states, including Alaska. The BLM also administers 700 million acres of sub-surface mineral estate throughout the nation. The BLM's mission is to manage and conserve the public lands for the use and enjoyment of present and future generations under our mandate of multiple-use and sustained yield. In fiscal year 2013, the BLM generated $4.7 billion in receipts from public lands.

Salem, Oregon 97306
http://www.or.blm.gov/salem/

Dear Public Land User:

Welcome to the Winter 2015 edition of the Salem District's *Project Update*. The purpose of our publication is to provide you with information on proposed activities on lands administered by the Bureau of Land Management (BLM) within the Salem District.

The BLM is continuing to make progress on the Resource Management Plans (RMPs) for Western Oregon plan revision. The RMP team is currently working on the Draft Resource Management Plan/Environmental Impact Statement (Draft RMP/EIS). The current goal is to release the Draft RMP/EIS in April 2015. All documents will be available on the BLM's RMPs for Western Oregon website at: http://www.blm.gov/or/plans/rmpswesternoregon/plandocs.php

In the interim, we continue to implement projects under the 1995 Salem District RMP. I am seeking comments and ideas on the attached Project Update from those who may be affected by our management programs. My intent is to increase the public's awareness of BLM issues, activities, opportunities and get your feedback as to whether we missed any issues as the District moves forward with project planning. Your opinions and suggestions are appreciated and very important to us. They help us make informed decisions, sound land management actions and improve our projects.

In the spirit of conserving resources and reducing expenses, I would like to know whether you wish to continue to receive the published version of this newsletter. Please note your preferences on the attached form. The Project Update is also available on the Salem District website at the following address: http://www.blm.gov/or/districts/salem/plans/index.php

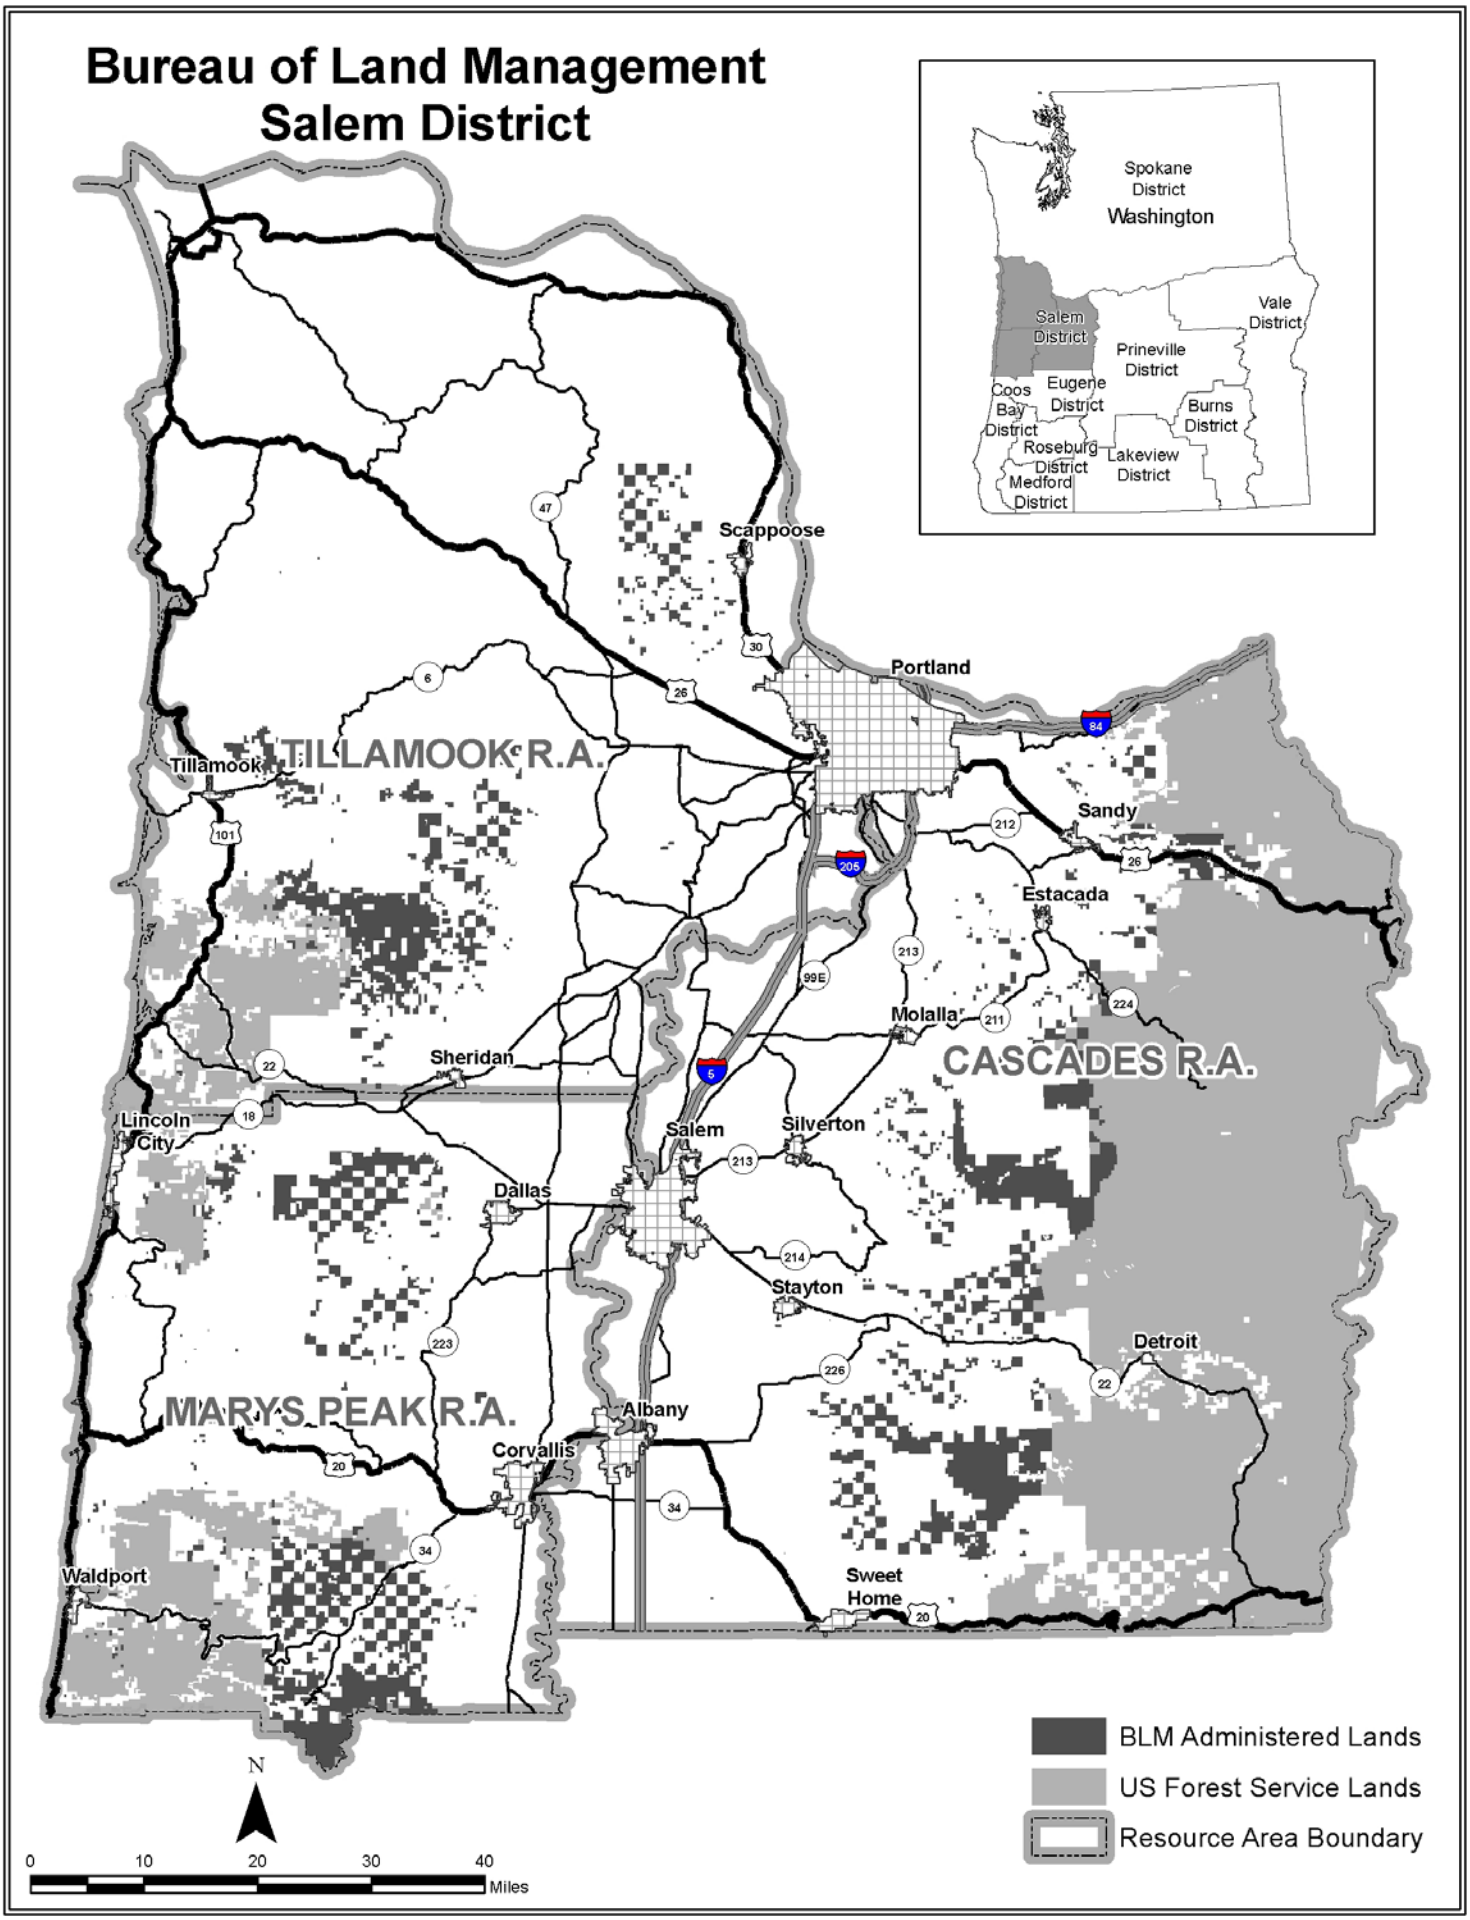
Your comments and concerns are welcome and may influence the final decision on these projects. Thank you for your continued interest!

Sincerely,

Kim M. Titus

Kim M. Titus
Salem District Manager

Bureau of Land Management
Salem District



Tables 1-4 describe the planning status of current projects. Table 5 describes the fiscal year 2015 timber sales. New information is shown in **bold font.**

Projects started and completed between editions of this document have gone through the full analysis process. The public is notified of these projects through letters, newspaper legal notices and postings on the Salem District Internet website at: http://www.blm.gov/or/districts/salem/plans/index.php

Explanatory comments concerning Tables 1–4:
Projects are organized by project type, project name/description, location, planning status, and contact person. A project may include the following stages:

Developing Proposed Action **–** A site-specific proposal, called a proposed action, is developed to implement the objectives and direction in the Salem District Resource Management Plan.

Scoping **–** Public comment is sought on the proposed action. Comments are used to refine the proposal, or to identify issues which will define the scope of analysis and alternatives to be considered.

Developing Alternatives **–** A range of alternatives is developed based on the issues raised during scoping, while addressing the purpose and need for the project.

Environmental Effects **–** The effects of implementing the alternative(s) are described and documented in an EA (Environmental Assessment), CX (Categorical Exclusion), or DNA (Determination of NEPA Adequacy).

Comment Period **–** Comment periods are established commensurate with the anticipated level of public interest and typically provide 30 days for an EA, and FONSI (Finding of No Significant Impact). There are no established comment periods for a CX or DNA.

Please send written comments, including the specific project name, to the appropriate address listed below during the identified public comment period.

Abbreviations and Definitions

Adaptive Management Area (AMA): One of the federal land use allocations set forth in the Salem District Resource Management Plan. The objective of this land use allocation is to develop and test new management approaches to integrate and achieve ecological and economic health, and other social objectives.

Connectivity /Diversity Blocks (CON): One of the federal land use allocations set forth in the Salem District Resource Management Plan. The objective of this land use allocation is to maintain 25-30% of each block in late-successional forest at any point in time and schedule harvest on a 150 year rotation.

Categorical Exclusion (CX): A category of actions (identified in agency guidance) that do not have a significant effect on the human environment and for which neither an environmental assessment nor an environmental impact statement is required.

Determination of NEPA Adequacy (DNA): An interim step in the BLM's internal analysis process that concludes that a proposed action is adequately analyzed in an existing NEPA document (an EIS or EA). Where applicable, the determination also addresses conformance with an approved land use plan.

Decision Rationale or Decision Record (DR): The BLM decision document associated with an EA that describes the action to be taken when the analysis supports a finding of no significant impact.

Environmental Assessment (EA): A public document that provides sufficient evidence and analysis to determine whether or not a federal undertaking would significantly affect the environment. If the answer is no, the agency issues a finding of no significant impact (FONSI), otherwise the agency would prepare an Environmental Impact Statement (EIS).

Finding of No Significant Impact (FONSI): A finding that explains why an action will not have a significant effect on the environment and, therefore, an environmental impact statement will not be required.

General Forest Management Area (GFMA): One of the federal land use allocations set forth in the Salem District Resource Management Plan. The objectives of this land use allocation is to produce a sustainable supply of timber and other forest commodities while providing habitat for a variety of organisms associated with both late-successional and younger forests.

Late-Successional Reserves (LSR): One of the federal land use allocations set forth in the Salem District Resource Management Plan. The objective of this land use allocation is to maintain a functional, interactive, late-successional and old-growth forest ecosystem.

Land Use Allocation (LUA): A designation defining uses that are allowed, restricted, or prohibited for a particular area of land. Examples include the matrix, adaptive management area, riparian reserve and late-successional reserve land use allocations.

Matrix: One of the federal land use allocations set forth in the Salem District Resource Management Plan. The Matrix land use allocation consists of federal land outside of reserves and special management areas. These lands are available for timber harvest at varying levels. GFMA and Connectivity/Diversity blocks are within the Matrix land use allocation.

MBF: Thousand board feet.

National Environmental Policy Act (NEPA): A federal law that requires agencies to determine if their proposed actions have significant environmental effects. NEPA procedures must insure that environmental information is available to public officials and citizens before decisions are made and before actions are taken. The NEPA process provides an understanding of environmental consequences of the proposed actions to help public officials make decisions.

Riparian Reserves (RR): One of the federal land use allocations set forth in the Salem District Resource Management Plan. Lands within the Riparian Reserves are designated for restoring and maintaining the ecological health of watersheds and aquatic ecosystems and for providing habitat for terrestrial species.

SBA: Small Business Administration

Scoping: The process by which the BLM solicits input on potential issues and effects associated with proposed federal actions. Scoping is one form of public involvement in the NEPA process.

Thinning - Commercial Thinning/Density Management: Commercial thinning is the removal of merchantable trees from an even-aged stand to encourage growth of the remaining trees. Density Management is the cutting of trees for the primary purpose of widening their spacing so that growth of remaining trees can be accelerated. Density management harvest can also be used to improve forest health, to open the forest canopy, or to accelerate the attainment of old growth characteristics if maintenance or restoration of biological diversity is the objective. Specific objectives would vary by land use allocation.

Table 1: Cascades Resource Area Proposed Projects

Name / Description of Project	*Location*	*Planning Status*	*Contact*
	Vegetation Management Actions		
Chuck Wagon Timber Sale (DOI-BLM-OR-S040-2014-0007-CX): **This project proposes to thin approximately 50 acres of the General Forest Management Area (GFMA) and Connectivity (CON) land use allocation (LUA).**	**T3S, R5E, Sec. 35, Eagle Creek 5th Field Watershed, Clackamas County, Oregon.**	**Categorical Exclusion (CX) to be completed winter of 2015.**	**Alisa Tanner (503 589-6844)**
Hole in the Road Timber Sale: (DOI-BLM-OR-S040-2015-0001-EA): **This project proposes to thin 200 acres of GFMA/CON LUA.**	**T7S, R3E, Sec. 15, 16, 21, 22, 25, 26, 27, 28 in the Upper Molalla River Watershed in Clackamas County, Oregon.**	**Scoping. Environmental Assessment (EA) to be completed Winter 2016.**	**David Simons (503) 375-5612**
Jungle Gem (DOI-BLM-OR-S040-2013-0005-CX): This project proposes to thin approximately 70 acres of 70 year old forest stands within the Matrix and Riparian Reserve LUA.	T.8S., R.2E., section 1.Thomas Creek Watershed, Marion County.	**CX / Decision Record (DR) to be completed Winter 2016.**	Bonnie Trefren (503) 315- 5908
Little Chair Salvage (DOI-BLM-OR-S040-2015-0001-CX): **Salvage of dead and dying timber from the 36-Pit Fire that burned in the fall of 2014.**	**T4S, R5E, Sections 7, 18, 20, 29, 30, and 32**	**CX to be completed Winter 2015.**	**Alisa Tanner (503 589-6844)**
Mighty Moose Thinning (DOI-BLM-OR-S040-2012-0004-EA): The project proposes to thin approximately 1,400 acres of 50-75 year old forest stands within Matrix, **Late Successional Reserve** (LSR) and Riparian Reserve LUA.	T.12S., R.2E., sections 11, 12, 14, 21, & 29; T.12S., R3E., sections 8, 9, 10, 15, 17, & 20. Quartzville Creek Watershed, Linn County.	EA completed May 2014. Mighty Moose DR completed July 2014. **Peter Principle DR completed November 2014. Corbin Cutoff DR completed December 2014.**	**David Simons (503) 375-5612**
Outer Limits / Fawn Two Timber Sale (DOI-BLM-OR-S040-2014-0004-EA): **This project proposes to thin and regeneration harvest on approximately390 acres of GFMA/CON LUA.**	**T8S, R3E, Sec. 25, T10S, R4E Sec. 17, 21, 29 in the Little North Santiam River and Middle Fork Santiam River 5th Field Watersheds in Marion and Linn Counties, Oregon.**	**Scoping. EA to be completed Summer2015.**	**Alisa Tanner (503 589-6844)**
Sunday Morning Belly Twister (DOI-BLM-OR-S040-2014-0001-EA): This project proposes to thin approximately 1600 acres of 30-118 year old forest stands within the Matrix and Riparian Reserve LUA. Approximately 90% of the acres are less than 80 years old.	T.11S., R.1E., sections 1, 3, & 35; T.11S., R.2E., sections 5, 6, 7, & 8. Crabtree Creek and Thomas Creek Watersheds, Linn County.	**EA completed December 2014.**	Keith Walton (503) 375-5676
Thunderkat Timber Sale (DOI-BLM-OR-S040-2014-0002-EA): This project proposes to harvest approximately 70 acres of 80-90 year forest stands within the Matrix and Riparian LUA.	T.10S., R.2E., section 5, Thomas Creek Watershed, Linn County.	EA to be completed **Winter 2015.**	David Simons (503) 375-5612

Table 1: Cascades Resource Area Proposed Projects

Name / Description of Project	*Location*	*Planning Status*	*Contact*
Recreation Actions			
Fishermen's Bend Recreation Site Special Recreation Area Management Plan (DOI-BLM-OR-S040-2014-0003-EA): The proposed action is to develop a management plan for the recreation site.	T.9S., R.2E., sections 25 & 26.	EA to be completed Winter 2015.	Traci Meredith (503) 315-5991
Miscellaneous Land Use Requests			
Process Requests (EA/CX/DNA**):** For various land uses such as rights-of-way, tail-holds, and special use permits.	Cascades Resource Area-wide	Ongoing	Belle Smith (503) 315-5984
AT&T Right-of-Way Grant Amendment (DOI-BLM-OR-S040-2014-0004-CX): The proposed action is to issue a right-of-way amendment for the construction of a 4"conduit for a fiber optics line to AT&T's existing Comm. Site on BLM managed lands. Conduit will be placed within their existing road Right-of-Way.	T.2S., R.6E., sections13, 14, & 23	**CX completed August 2014.**	David Simons (503) 375-5612
Private Rights-of-way (ROW) lease (DOI-BLM-OR-S040-2014-0010-CX): Issue a utility and ingress egress ROW. Issue ROW only, no construction proposed at this time.	T. 3 S., R. 3 E., section 35	**CX completed July 2014.**	David Simons (503) 375-5612

Table 2: District-wide Proposed Projects

Name / Description of Project	*Location*	*Planning Status*	*Contact*
Vegetation Management Actions			
Special Forest Products **(CX): The proposed action is to harvest (sell)** Special Forest Products such as conifer boughs, floral greenery, fungi, native plant cuttings, seed and cones, transplant stock, and wood products (firewood, fence posts).	District-wide	**CX completed November 2014.**	Carolyn Sands (503) 315-5973
Vegetation Management **(EA):** This project will consider expanding the number of herbicides available for treating invasive plants. Proposed Action is to use herbicides as one of several tools to treat invasive plants and to control unwanted vegetation along roadsides, right of ways, recreation areas, in restoration projects and at Horning Seed Orchard.	District-wide	In progress	Claire Hibler (503) 375-5677

Table 3: Marys Peak Resource Area Proposed Projects

Name / Description of Project	*Location*	*Planning Status*	*Contact*
Vegetation Management Actions			
Rainbow Ridge Timber Sale EA (DOI-BLM-OR-S050-2013-0002-EA): The project consists of variable retention harvest, commercial thinning, and density management on approximately **147** acres in the Matrix LUA.	T.14S., R.6W., section 29. Upper Alsea River and Marys River watersheds, Benton County.	**EA completed November 2014. DR to be completed FY 2015.**	Stefanie Larew (503) 375-5601
South Yamhill River Watershed Enhancement EA (DOI-BLM-OR-S050-2012-0001-EA): Project 1, Density Management, would thin approximately 1,168 acres of 40-78 year old stands in the AMR and RR LUAs through six timber sales. Project 2, Legacy Tree Release and Coarse Woody Debris Creation, would include felling, girdling, and topping of individual trees or creation of gaps to release legacy trees on approximately 117 acres of stands less than 80 years of age.	Several sections of BLM-administered lands in T.7S., R.8W. and T.7S., R.7W. Agency Creek-South Yamhill River Watershed, Polk County.	EA completed May 2014. Project 1 DR to be completed in FY 2016.	Stefanie Larew (503) 375-5601
Thin Lindsey Timber Sale EA (DOI-BLM-OR-S050-2013-0005-EA): Project 1 entails density management on approximately 176 acres and Project 2 entails coarse woody debris creation and legacy tree release on approximately 121 acres on mid-seral forest stands in the Late-Successional Reserves and Riparian Reserves.	T.7S., R.9W., sections 17, 18, & 19. Lower Siletz River Watershed, Lincoln County.	EA completed May 2014. Project 1 DR to be completed in FY 2015.	Ron Exeter (503) 315-5963
Recreation Actions			
Alsea Falls Resource Management Plan Revised Decision: A portion of the management plan decision related to shared use trails will be revised to remove shared use trails from Phase 1 of trail construction.	R7W, T14S sections 26, 27, 34, 35	**Revised decision to be issued early 2015.**	Rich Hatfield (503) 315-5968
Miscellaneous Land Use Requests			
Process Requests (EA/CX/DNA): For various land uses such as rights-of-way, tailholds, and special use permits.	Marys Peak Resource Area	Ongoing	Rich Hatfield (503) 315-5968
State of Oregon Indemnity Selection EA (DOI-BLM-OR-S050-2014-0001-EA): The BLM is reviewing approximately 1,471 acres of Public Domain lands in the Salem District to determine their suitability to transfer to the State of Oregon.	District wide. Lands are within Lincoln, Tillamook, and Polk counties.	Scoping completed Spring 2014. **NEPA timeline TBD.**	Stefanie Larew (503) 375-5601

Table 4: Tillamook Resource Area Proposed Projects

Name / Description of Project	*Location*	*Planning Status*	*Contact*
Vegetation Management Actions			
East Fork Nehalem Timber Management Project (DOI-BLM-OR-S060-2014-0005-EA): **The BLM is in the process of analyzing the effects of a proposal to harvest up to approximately 1000 acres of 65 – 90 year old forest in the Matrix (GFMA and Connectivity) and Riparian Reserve land use allocations. Harvest method would include commercial thinning, variable spaced density management thinning, and regeneration harvest.**	T.5N., R.3W., sections 31 & 33; T.4N., R.3W., sections 5, 17, 19, & 21. East Fork Nehalem Watershed, Columbia County.	EA to be completed Winter 2015.	Andy Pampush (503) 815-1143
Panther Creek Projects (DOI-BLM-OR-S060-2015-0001-EA): **The projects include commercial thinning, underplanting, road stabilization and decommissioning, and coarse woody debris creation. Lands are within the Adaptive Management Area and Riparian Reserve land use allocations.**	**Panther Creek 6th field Watershed (North Yamhill River 5th Field Watershed) Yamhill County. T3S-R6W sections 13, 23, 24, and 25; and T3S-R5W sections 17, 19, 29, 33, and 34.**	**Scoping**	**Andy Pampush (503) 815-1143**
Walker Creek Projects (DOI-BLM-OR-S060-2011-0012-EA): **The projects include commercial thinning, underplanting, road stabilization and decommissioning, and coarse woody debris creation. Lands are within the Adaptive Management Area, Late Successional Reserve, and Riparian Reserve land use allocations. A portion of the project will be implemented in the form of two timber sales being offered in 2015.**	Nestucca River Watershed, Walker Creek and Bald Mtn. Fork Watersheds, Tillamook and Yamhill Counties.	EA completed March 2014. **FONSI signed December 2014. First Decision expected in January 2015.**	Andy Pampush (503) 815-1143
Transportation System Management Actions			
Nestucca Backcountry Byway Project (DOI-BLM-OR-S060-2014-0001-EA): The proposed project includes paving the 2.6 miles of the Nestucca Access Road that is currently gravel surfaced; this would involve some minor road realignment and subgrade widening to make it a double-lane road. The project would also involve replacing undersized and/or failing culverts along the Nestucca, Bible Creek, and Bald Mountain Access Roads; installing additional cross-drain culverts; installing a two-lane bridge at Elk Creek; chipsealing currently paved road segments; repainting fog lines and centerlines; repairing multiple road slump areas; constructing additional paved turnouts along Bible Creek and Bald Mountain Access Roads; paving and/or restricting vehicular access at selected existing turnouts along Nestucca Access Road; managing roadside trees; and installing traffic signs, informational signs and additional guard rails.	Nestucca River, Willamina Creek and North Yamhill Watersheds, Tillamook and Yamhill Counties.	EA to be completed Winter 2015.	Steve Bahe (503) 815-1123

Table 4: Tillamook Resource Area Proposed Projects

Name / Description of Project	*Location*	*Planning Status*	*Contact*
Tillamook Resource Area-wide Routine Road Maintenance *(DOI-BLM-OR-S060-2014-0008-CX)*: The project would include routine road maintenance conducted on BLM controlled roads within the Tillamook Resource Area. Project examples include road grading, roadside brushing, and replacing failing culverts.	Tillamook Resource Area-wide	CX to be completed **Winter 2015.**	Andy Pampush (503) 815-1143
Miscellaneous Land Use Requests			
PC-80 R&PP Lease (DOI-BLM-OR-S060-2013-0006-EA): The project being considered is to enter into a long term lease with the Pacific City Joint Water-Sanitary Authority (PCJWSA) for the use of approximately 75 acres of BLM land within the boundaries of the unincorporated city of Pacific City, Oregon. The PCJWSA would develop the area for recreation purposes such as trails and interpretive features, and tsunami evacuation purposes.	T.4S., R.10W., section 19.	EA completed April 2014. DR to be completed **Spring 2015.**	Traci Meredith (503) 315-5991
Process Requests (EA/CX/DNA): For various land uses such as rights-of-way, tailholds, and special use permits.	Tillamook Resource Area-wide	Ongoing	Andy Pampush (503) 815-1143
