Decision Document
Ravenwing Ranch LLC Water Pumpstation, Pipeline and Powerline
& Access Road Right-of-way
(serial no. WAOR 65404)

DECISION

I have reviewed the documentation for this proposal (OR134-08-CX-037), and have determined that issuance of a right-of-way would be categorically excluded from NEPA. Under the authority of Title 5 of the Federal Land Policy and Management Act of 1976, a right-of-way may be granted to Ravenwing Ranch, LLC for an existing water pumpstation, water pipeline, aerial powerline, and an access road. Said improvements are located on the west shore of the Columbia River in a portion of Lot 2, Section 8, T.21N., R.22E., Willamette Meridian, Chelan County. The right-of-way to be granted will be issued for a 30 year term, and will be subject to the terms and conditions that are typical for this type of authorization.
