Re: Western Oregon Plan Revision (WOPR)

As a property owner in Western Oregon for the last 18½ years, I am opposed to the Western Oregon Plan Revision. It appears to be an undermining of the Northwest Forest Plan which in turn endangers our Clean Water act and the Endangered Species Act.

Please do not let this current administration destroy our natural resources. We need to be diligent and dedicated to keeping Oregon a state to be proud of, not just one big "clearcut".

Thank you,
Rebecca S. Berryman
