NO OLD GROWTH CUTTING

1129

TO BLM,

NOV 26 2007 BLM

EACH MORNING WE WALK IN OLD GROWTH FOREST. WE ARE DAILY AMAZED AND GRATIFIED BY THE DEVERSITY OF THE VEGETATION, THE CLEAN WATER IN THE STREAMS, THE VARIETY OF ANIMALS, BIRDS AND INSECTS, AND OF COURSE THE BEAUTY OF IT ALL.

ONCE THOSE OLD GROWTH CEDARS, HEMLOCKS, MAPLES, POPLARS AND FIRS ARE DESTROYED AND TURNED INTO ANOTHER DOUG FIR TREE FARM, THE VIABILITY OF THE ECOSYSTEM IS LOST AND WILL NOT RETURN FOR GENERATIONS.

IT IS A SHORT SIGHTED, TEMPORARY SOLUTION THAT LEAVES US ALL POORER.

PLEASE DO NOT CHANGE THE N-W FOREST PLAN. THANK YOU.
