I am opposed to all WOPR alternatives, except for the "No Change" alternative. Return to the drawing board - this does not mean you must start over at ☐ 1. Help fix the PNW Forest Plan so BLM can reframe their 10 yr. mgmt. plan within it's parameters, instead of ignoring it. Stop managing for individual T+E species + start managing for intact ecosystems/habitat. Find a way, in spite of the checkerboard of O+C lands. THANX - BK Taylor 11-20-
