BLM Western Oregon Plan

In regard to the proposed OHV use in the Worthington Obenchain area
We have owned propert in the area sence 1955. and have grasing permits to run cattle in the area.

1. for years they have been cutting the amount of units we could have because it was critical wildlife habitat and the cattle would hurt the area

2 with out cattle to graze the grass it has grown up with dead grass & Brush so that it is a real fire hazard in the late summer and Fall.

3 we have troubl now of Keeping up fences + Keeping gate closed because of O.H.V.

4 we have just obtained a closure of the area from oct. to april 30 to protect wildlife and the land and now the BLM wants to make it a O.H.V. area out of it

We the Bateman Family strongly object to the preposed O.H.V. use in the Worthington Obenchain area

Pete Meoni Ken + Doug Bateman
