Revising the BLM's Resource Management Plans in Western Oregon

WESTERN OREGON PLAN REVISIONS

Hope you will read this and not put it in the trash!

What are you people thinking, revising the western oregon resource management plan which mostly wants to cut more old growth trees (which there are very few left) plus to cut more trees in general (unsustainable). you are so out of step of what is happening in the world and what is happening in western oregon.

now that our government finally believes that Global warming is a fact. the different offices of the government need to start doing things differently to lessen the affect, your plan does not do that!

we need the trees for a carbon storehouse, to help with shading and to slow the many extinction that are occuring. you need to help with the crisis not make it worse, you have a moral obligation to make policy wisely.

now on the local crisis, logging is a short term fix that would destroy a long term solution. people will not visit here to see stumps, we have a beautiful area -

here, logging does not make it better. For the few jobs it will create, logging will destroy many more that can be created. - Hiking guides, rafting horse rides, lodging and Food catering to name a few.

we need the BLM's help in making this a better world and not to be the enemy by creating highly Flammable tree plantations!

enJoy!

Ron Pio
