Portland, OR 97208

Dear Ed Shepard,

Our forests have been tied up in courts for 17 years. We have watched them burn and not be replanted. We should be thinning the forest to limit the possibility of a devastating fire. Our counties need money from these timber receipts in the very worst way. Libraries are being closed or opened on limited basis and jails are being emptied as the timber receipts have disappeared.

Harvest 960 million board feet annually, stop the waste of our public lands and provide a stable timber supply. I urge you to adopt a new modified alternative 2 plus that would harvest 960 million board feet annually.

John Tallman

Sincerely,
