Revising the BLM's Resource Management Plans in Western Oregon

WESTERN OREGON PLAN REVISIONS

The alternatives as presented ~~express~~ emphasize timber management. I would like to address motorized recreation. The Medford district is the only district in Western Oregon with specific motorized emphasis areas. When you have a timber sale, included in the contract should be planning for motorized use after harvest. Any roads or trails closed by timber harvest should be repaired or replaced.

I and my family frequent many of these areas and loss of any of these would be devastating to the user group. My favorite riding area is Johns Peak and the fact that the Motorcycle Riders Association owns large acreages there makes it an ideal place for BLM to enlarge upon.
