Please consider these written comments regarding Johnny Behind the Rocks RMZ (Appendix C, Table C11) and The Bus @ Baldwin Creek RMZ (Appendix C, Table C14), in favor of Alternative Plan B for each area.

The importance of each area to the local Lander community is critical. Outdoor recreation abounds in these areas for a wide range of enthusiasts. The short drive makes each location a desirable destination for after work activity and weekend enjoyment. I favor Alternative Plan B for each area in order to restrict, primarily, motorized use. It is my opinion that allowing motorized use in these areas detracts from the experience the land has to offer. Noisy engines spook and stress wildlife and is smelly for non-motorized users. There is nothing more frustrating to a mountain biker, hiker, or trail runner than being over taken by a noisy, stinky four-wheeler or motorcycle. For me, coughing and hacking results, until finally the air clears; and I know I have little chance of seeing any wildlife the rest of my trip.

Thank you for your consideration!
