Lander Field Office
Attn: RMP Project Manger
1335 Main St
Lander WY 82520

Dear Team Lander-RMP:

Thank you for this opportunity to comment on your Draft RMP.

I support the withdrawal of the upper Wind River / Dubois valley from oil and gas development. With the abundance of wildlife there, it is unsuitable for development. My family has enjoyed hiking, hunting, and camping in this area for 40 years.

In regards to grazing, I prefer Alt D for riparian areas in our county.

I like the Special Designations/ Heritage Tourism and Recreation Corridor proposed Alt D as shown on Map 127. I have lived in Atlantic City for the past 32 years, off and on. We can see how many tourists are attracted to the Mormon Trail, the Pony Express route, and the Oregon Trail. The new Visitors Center at Sweetwater Station demonstrates the jobs created by this tourist traffic.

I support all the Special Designations/ Areas of Critical Environmental Concern, especially the Lander Slope, the Red Canyon and the expanded East Fork ACECs. These are all very important scenic and recreational resources for residents as well as for visiting climbers, mountain bikers, hikers and out of state hunters. thanks again for this opportunity to participate.

Sincerely,

Marjane Ambler

Atlantic City, Wyoming
