These are public lands. We the public and taxpayers say NO to the BLM solution for management of these herds. We have submitted alternatives to BLM disposal of these highly family oriented beings. Our country was built on the backs of.horses .And this is how the United States Government treats them

To the Members of the BLM Wyoming RAC:

The Bureau of Land Management's (BLM's) current approach to wild horse and burro management is unsustainable and inhumane. It's time for all parties to work together to implement humane and cost-effective solutions that will Keep Wild Horses Wild. In this spirit, we, the undersigned citizens and taxpayers, respectfully ask your advisory board to recommend the following actions to the BLM:

The National Academy of Sciences (NAS), which that "continuation of 'business as usual' practices will be expensive for the BLM and the public it serves."

1. Re-evaluate “Appropriate” Management Levels (AMLs) for Wyoming's wild horse Herd Management Areas (HMAs). The NAS found that the BLM's establishment of AMLs "is not transparent to stakeholders, supported by scientific information, or amenable to adaptation." The current AMLs are based on the unfair allocation of the vast majority of forage resources in HMAs to privately owned livestock instead of to federally protected wild horses and burros. AMLs should be increased to reflect the social preference for protecting wild horses and the need to preserve genetically viable herds.

2. Discontinue any plans to sterilize wild horses by spaying mares and/or castrating stallions. Such procedures cause behavioral changes in wild horses, which, in turn, cause dramatic changes in herd dynamics and social organization. As a result, sterilization flies in the face of the Wild Free-Roaming Horses and Burros Act, which mandates treatment of wild horses as "integral part of the natural system of the public lands" and protects them from "capture, branding, harassment and death."

3. Strengthen animal welfare policies for roundup, capture, handling and holding of wild horses.

Wyoming has just 2,500 horses left on 3.6 million acres of BLM land in the state - a ratio of one horse per 1,400 acres - hardly an overpopulation problem. By contrast, livestock graze on 18.3 million acres of BLM land in Wyoming. Put another way, wild horses are present on just 20 percent of the BLM land available for livestock grazing in the state. Therefore, conflicts between wild horses and livestock in Wyoming can be resolved.

With more than 80 percent of the American public opposed to horse slaughter and 72 percent strongly in favor of preserving wild horses and burros on our public lands, we must work together to implement solutions that protect these animals in the wild. The BLM’s endless, costly and cruel cycle of roundups, removal and stockpiling of wild horses in holding facilities must end.

Please vote to recommend these common sense and publicly supported reforms. Thank you for your consideration.

Sincerely,
Michelle Benes

Good Evening,
Since I became aware on Thursday, January 29th, you will be holding meetings next week, I have printed the AWHPC petition and talking to people on my lunch hour (3 hours total) about the diminishing American Mustangs. Of the 94 people with whom I spoke: 91 people signed AND only 2 people had even heard about the cattlemen, ranchers and BlM's deceitful and despicable deeds that are being carried out against the Mustangs, against public lands and against the public.
Regarding Wyoming specifically: The fact that tourism ads boast American Horses are celebrated in Wyoming is truly and remarkable ridiculous...what a bunch of malarkey!
My husband and I will be driving to Laramie and hand delivering the AWHPC petition. On behalf of our mustangs and their newly impassioned 91 advocates, I urge you to change your treatment of our mustangs because I have single-handedly concluded: once the public knows what has transpired: they do not agree with the BLM's methods, which are absolutely inhumane, stupidly expensive and completely unnecessary.
Sincerely,
Brenda Love Bennett

The continued demise on the american iconic wild horses has seen enough of this important part of american history . It is completely unknown to me and thousands of others why any of you would want to continue the unnecessary destruction of such an important part of the american west . Wyoming is filled with western history and we do not understand why you would go along with the desire to distroy what is left of the american west.. Leave what is left of these animals ALONE !! They do not , nor does our heritage deserve to be wiped out .

Comments for the BLM Wyoming Resource Advisory Council (RAC) meeting on February 2 - 4, 2015

Judith Fader <judithfader@verizon.net> Sat, Jan 31, 2015 at 11:49 AM
To: cvenhuizen@blm.gov

To the Members of the BLM Wyoming RAC:

I would like to go on record as supporting the comments to be submitted by the American Wild Horse Preservation Campaign (AWHPC) on February 4, 2015.

The AWHPC is a very credible organization. If you have a chance to visit their website, you will find a fairly complete history of the American wild horse and burro saga--and links to the actual, relevant legislation that has been passed and signed into law--since the unanimous passage of The Wild and Free-Roaming Horses and Burros Act of 1971 (Pub.L. 92–195), which was signed into law by President Richard M. Nixon.

I have been following the BLM's wild horse and burro "management" program and policies for several years and have realized that its "failures" are essentially due to ignorance, self-interest, intimidation on the part of powerful interests, and greed. (There is absolutely nothing wrong with money itself. However, the love of money is a serious character flaw.)

I am not a religious person in the sense that I do not belong to any particular religious group or denomination. However, I do deeply believe that human beings were given the highest place in the world order not only to manage the rest of creation (both the flora and fauna) but to care for and nourish it. That is, God created many wonders for us to behold, cherish and protect, and not to simply exploit for our personal self-interests.

Please take to heart the enlightened and scientifically sound comments that the AWHPC will present on Wednesday, February 4, 2015. It is time for government bodies to make American citizens proud of their government. By supporting the suggested management changes presented by the AWHPC, the BLM Wyoming RAC can take the citizen's lead in reforming the BLM's misguided management policies in a way that the majority of American citizens would approve of.

Please give my comments your serious consideration.

Thank you for your time and your public service.

Respectfully,

Judith A. Fader

For your quick reference, the essential comments from the AWHPC are as follows:

The American Wild Horse Preservation Campaign urges you to recommend the following actions to the BLM:

1. Implement humane and proven PZP fertility control to manage Wyoming's wild horse herds on the range. This alternative was recommended by the National Academy of Sciences (NAS), which found that "continuation of 'business as usual' practices will be expensive for the BLM and the public it serves."

2. Re-evaluate “Appropriate” Management Levels (AMLs) for Wyoming's wild horse Herd Management Areas (HMAs). The NAS found that the BLM's establishment of AMLs "is not transparent to stakeholders, supported by scientific information, or amenable to adaptation." The current AMLs are based on the unfair allocation of the vast majority of forage resources in HMAs to privately owned livestock instead of to federally protected wild horses and burros. As a result, sterilization flies in the face of the Wild Free-Roaming Horses and Burros Act, which mandates treatment of wild horses as "integral part of the natural system of the public lands" and protects them from "capture, branding, harassment and death."

4. Strengthen animal welfare policies for roundup, capture, handling and holding of wild horses.

To Whom it concerns,

Please submit my comments to the Wyoming Resource Advisory Committee for their upcoming meeting:

I care very deeply about wild horses. So I'm urging you to take humane action to save Wyoming's wild horses. The humane action is to use PZP fertility control on horses living in the wild --- instead of removing wild horses from their native lands.

The PZP fertility control method is not only effective, it is less expensive than the round-ups.

Hi Christian,

Please accept these public comments from the American Wild Horse Preservation Campaign for the Wyoming Resource Advisory Council public comment period tomorrow. These comments are endorsed by 14,358 citizens, whose names and addresses are included in the attached file. We request that these comments and names and number of citizens endorsing them become part of the public record for the meeting and be distributed to the RAC members as part of the public comment period.

We are cc'ing Marshall Dominick on this email since he is the RAC representative for wild horse and burro advocacy.

Thank you for your consideration.
