Revising the BLM's Resource Management Plans in Western Oregon

WESTERN OREGON PLAN REVISIONS

I believe any plans for "Public Lands" need to include as many users as possible. The more area that's available, the less impact there will be on a given area. Every club I've belonged to has been involved in trail maintence & clean-up & worked with the BLM.

I raised 2 boys riding in the woods. The lessons learned about responsibility & the environment are invaluable.

I really encourage the BLM to consider the actual facts regarding land use & planning & not listen to the empty rantings of so called environmental groups, most of which have never been in the woods.

Oregon's public lands belong to all Oregonians & I'm confident the BLM, along with all the users can properly manage these resources.
