Dear State Director of Geospatial Services F. David Radford,

Dear Bureau of Land Management ("BLM"),

I strongly support the proposed mineral withdrawal to protect the watershed of the Boundary Waters Canoe Area Wilderness ("Boundary Waters").

I urge the BLM to withdraw the 225,378 acres of national forest lands to protect the Boundary Waters from the threat of endless sulfide-ore copper mining pollution. Thank you for the opportunity to comment.

Too many beautiful landmarks around the world get ruined by man made creations and we so often forget that we share this planet. Not only with other humans but with other creatures. Who are we to decide that money is more important than the life of our planet? When will we go too far? I urge the government to draw the line here, now and forever more. Enough is enough.

Sincerely,
jae forrest
