Dear State Director of Geospatial Services F. David Radford,

Dear Bureau of Land Management ("BLM"),

I strongly support the proposed mineral withdrawal to protect the watershed of the Boundary Waters Canoe Area Wilderness ("Boundary Waters"). The threats posed by sulfide-ore copper mining are unjustifiable in the watershed of such a sensitive and important area.

Instead of including all the prewritten bs that most people will submit, I'll give some personal insight. I visited the boundary waters a few year ago with my family and it was one of the most beautiful places I've been. To let some mining operations ruin one of the best natural places left would be a farce. Thank you.

I urge the BLM to withdraw the 225,378 acres of national forest lands to protect the Boundary Waters from the threat of endless sulfide-ore copper mining pollution. Thank you for the opportunity to comment.

Sincerely,
Petra M
