Dear State Director of Geospatial Services F. David Radford,

Dear Bureau of Land Management ("BLM"),

I strongly support the proposed mineral withdrawal to protect the watershed of the Boundary Waters Canoe Area Wilderness ("Boundary Waters"). The threats posed by sulfide-ore copper mining are unjustifiable in the watershed of such a sensitive and important area.

Not only do we need to think about the health of the animals plants and people who live there and near and for the future of our planet, but there are so few places to enjoy the night sky in all of its glory and I hope to bring my son there when he’s old enough.

I urge the BLM to withdraw the 225,378 acres of national forest lands to protect the Boundary Waters from the threat of endless sulfide-ore copper mining pollution. Thank you for the opportunity to comment.

Sincerely,
Shaye Mckenney
