To:

Bureau of Land Management

I've read the articles in all the papers - both the pro and con, and I'm very much against the WOPR!

I'm an elderly citizen of Lane County and feel like a part of my soul would be taken away — gone with wisdom gathered in the core of those majestic trees!

Leave them alone! My great grandchildren will cherish those majestic trees and reap the many ~~for~~ benefits from the environment surrounding them.

And the birds and bees, the fish, the plants and the animals would like a chance to → entertain God's children for many years to come!

Sincerely,
Neva Gray
