Revising the BLM's Resource Management Plans in Western Oregon

WESTERN OREGON PLAN REVISIONS

I think it is wonderful that we have public lands for all to enjoy. Some are saying that riding ATV's is destroying this land. If this land is shut down all that will happen is that more public property will be turned into private tracks. I don't think my neighbors would appreciate this if they had to listen to bikes all day long. I feel closure of many areas is caused by wealthy individuals with their own adjendas (IE building homes etc.) Is this better for our environment? putting in more wells to deplete the water supply, ~~as~~ Most of these individuals are money motivated. Would you rather our children were hanging out in town getting in trouble or out in the hills having fun with their families.
