WOPR Comment
Abbie Josie
BLM Medford

RECEIVED
OCT 26 2007

Dear Ms Josie,

I have read a couple hundred pages of the WOPR and have severe reservations. The WOPR will have disasterous repurcusions for our forests in SW Oregon. Logic and science have been removed from this plan.

WOPR is obviously another effort for the Bush Administration to pay off his supporters, especially the Timber industry. It seems 90% of our remaining heritage forests will be lost forever. Clean air, clean water, biodiversity, environmental and wildlife habitat destruction are condoned by the BLM.
