BLM Alaska
Resource Advisory Council
Resolution 11-03
November 30, 2011

The following resolution was approved by a quorum of council members present during a vote at the November 30, 2011 *council meeting held in Fairbanks Alaska. Council vice-chair Michael McDougall presiding in the absence of Council Chair Scott Hala. The resolution was forwarded to BLM State Director Bud Cribley.*

WHEREAS, invasive weeds are an important issue the Bureau of land Management (BLM) has a need to manage, and

WHEREAS, there are NEPA processes in place to implement, and

WHEREAS, BLM can prioritize areas in the state to be considered, and

WHEREAS, other land managers/stakeholders are cooperatively involved along the Dalton Highway, and

WHEREAS, the program supports a scientific process for inventory and management strategy.

NOW THEREFORE, the Alaska RAC reaffirms its support of BLM's invasive plant management work through the NEPA process, in collaboration with other land managers and incorporating a public involvement process.

CERTIFICATION

The foregoing resolution was adopted by the BLM Alaska Resource Advisory Council by a vote of 13 in favor, 0 opposed, and 2 not voting.

Michael McDougall, Vice Chair, Alaska RAC
