Dear State Director of Geospatial Services F. David Radford,

Dear Bureau of Land Management ("BLM"),

I truly hope you will decide to preserve the boundary waters in Minnesota from the threat of copper mining. Our world has dwindling and precious natural resources but also dwindling natural areas. The light and chemical pollution from copper mining would destroy one of the only close-to-pristine areas we have left in the United States, a PRICELESS and irreplaceable possession! Please ban cooper mining in this area!

Sincerely,
Elizabeth Hrycyna
