Dear State Director of Geospatial Services F. David Radford,

It's incredibly shameful that in 2021 you still need a mass influx of public opinion to be told not to do the wrong thing.
Obviously an environment so pristine and beautiful should not be ruined for selfish and greedy capitalism.
How hard is it for you to do the right thing? To do the right thing for your constituents and the environment?
The fact that you are so greedy that you would even consider destroying the sanctity of the Boundary Waters for your own capital gain is absolutely what is wrong with American governments and politicians. Shame on you. Do the right thing. It's not hard.

Sincerely,
Anna Pheils
