Dear State Director of Geospatial Services F. David Radford,

Bureau of Land Management,

The Boundary Waters are priceless and irreplaceable and must not be put at risk of perpetual pollution from the most toxic industry in America.

I strongly support the proposed mineral withdrawal to protect the watershed of the Boundary Waters Canoe Area Wilderness. The threats posed by sulfide-ore copper mining are unjustifiable and would be absurd to allow in the watershed of such a sensitive and important area.

Withdraw the 225,378 acres of national forest lands to protect the Boundary Waters from the threat of endless sulfide-ore copper mining pollution.

Sincerely,
Hannah Sestack
