Dear State Director of Geospatial Services F. David Radford,

Dear Bureau of Land Management ("BLM"),

This has to be one of the most atrocious ideas I've ever seen. It is impossible for me to think of something more antithetical to the values that this administration suggested they had during the campaign. This is shameful and embarrassing that this has even reached the point of being seriously considered. It makes me wish I could take my vote back. If this goes through you will lose an entire generation of support. This is corrupt and outright evil. Shame on all parties involved.

I urge the BLM to withdraw the 225,378 acres of national forest lands to protect the Boundary Waters from the threat of endless sulfide-ore copper mining pollution. Thank you for the opportunity to comment.

Sincerely,
Erik Ohannesian
