Dear State Director of Geospatial Services F. David Radford,

Dear Bureau of Land Management ("BLM"),

You have probably seen a template message but I feel like actually getting personal for once. I no news that the internet and modern technology alter out brains. When I go outside I feel my brain resetting. In my home town there is a few where I can see over and past out downtown area. The air is crisp and the trees are in abundance. It's a beautiful sight. And while I may not live near the boundary waters I can only imagine how its balanced ecosystem benefits all around it. Please preserve areas like these. There are so many people that voted for you to be in office to protect areas like these. Please use your power for the greater good and not billionaire/corporate/capitalist greed.

Sincerely,
Leah Todd
