Dear State Director of Geospatial Services F. David Radford,

Dear Bureau of Land Management ("BLM"),

Hi, I know whoever is reading this probably receives dozens of the same message. Therefore I won't bore you with all that, but what I will say is that the boundary waters is one of the most beautiful places I've ever visited in my life. I visited the National park when I was a child and it was there that I found my love for astronomy and all things space. It has always been a dream of mine to one day take my children there so they can have the same experience. The possibility of this park being destroyed for the purpose of mining copper is laughable. This park and similar parks across the country are sacred and should be treated as such.

I urge the BLM to withdraw the 225,378 acres of national forest lands to protect the Boundary Waters from the threat of endless sulfide-ore copper mining pollution. Thank you.

Sincerely,
Eve Rosado
