Dear State Director of Geospatial Services F. David Radford,

Dear Bureau of Land Management,

As a Minnesotan, it is extremely important to me that mining is not allowed in the BWCA. The short-term profits are VASTLY outweighed by the long-term effects on the area. I think we both already know that, as much as a company might promise to clean up after themselves and not accidentally pollute, it will definitely happen, and will be impossible to ever reverse. Generations of people have visited the BWCA and have been inspired to care more about saving the small amount of wild land we have left. Please let that continue unsullied for generations more.

If mining is allowed in the BWCA, it will negatively affect my support and opinion of both the Federal government and the BLM.

I urge the BLM to withdraw the 225,378 acres of national forest lands to protect the Boundary Waters from the threat of endless sulfide-ore copper mining pollution. I appreciate the opportunity to comment.

Sincerely,
Haley Carlson
