Dear State Director of Geospatial Services F. David Radford,

Dear Bureau of Land Management ("BLM"),

please god stop ruining every good thing we have left on the planet. Not everything needs to become a nasty, gas guzzling, contaminating money mine. Genuinely, slow down & look at the world around you. It's beautiful when you keep your hands off, the way it's meant to be. The money you're so hungry for won't get you very far when our water is not drinkable, our air is unbreathable & our planet is inhabitable all thanks to these money hungry people. For the sake of whatever you care about, fight for clean air, water & untouched wilderness. I don't think that's too much too much for anyone to ask for.

Sincerely,
Benita ODonnell
