Dear State Director of Geospatial Services F. David Radford,

Dear Bureau of Land Management ("BLM"),

I have lived in Ely Minnesota all my life. We call it the front door to the boundary waters. I love this pristine place with all my heart. The BW and great lakes region holds around 70% of the worlds fresh water and is the least light polluted place in the entire world (I have seen the northern lights in the middle of the summer which is unheard of). You cannot threaten one of the worlds greatest resources with fracking. Please. It will catastrophically and forever change one of the most pristine protected wilderness areas in the entire world.

Sincerely,
Ali Anderson
Saint Paul, MN 55110
