Monthly Hot Topic Snapshot for week of May 1.docx
FY2017 Tracking Spreadsheet.xlsx

Hi Chris and Nikki, the Monthly Hot Topic Snapshot for the week of May 1 is attached. The WO410 tracking spreadsheet is also attached.

Please let me know if you have any questions. Thanks.

Britta Nelson, M.P.A., Program Analyst
National Conservation Lands (WO-410)

Hi Nikki and Sa ly with the fol owing feedback surname of DTS# 1349 NOA of the ROD for the Dominigue -Goca ante NCA s ecommended I mv ewed the package and ound t is conc stent wi h our ntent BP on the RMP/FE S. at ached) I haven t sent the package to the p ograms or m ew but can f you d

The Commun cat on p an add esses WSR NWT wi derness ands w th w dernes charac ter st cs and o her management of he NCA

The FRN is s ent on these areas so I added a comment Plea e nclude in the FRN that he Approved RMP makes cu tab l ty dete m nations or WSR ectab i hes a nat onal t al management co ridor or the O d Span ch NHT and makes dec s ons on the protec ion of lands with w derness charac ter st cs.

The FRN does not add ess the target shoo ing clo ure but I am not su e f that is required et me know if t should be add d

The BP den i ies a l uni s except for NSHT so I added a comment to Plea e nclude n the br ef ng paper hat a nat onal t al management co r dor w ll be estab i hed or he O d Span ch NHT

The on y other i em is none of the ROD no ice ma er ials addre s he pub ic st lty cor idor a ong Uniw eg Canyon/Hwy 141 so wasn t sure f we should note that th s should be included in the not ce b ie ing documen s or FRN

The no ice documents have been shar d wi h you I haven t uploaded them nto DTS yet so I can make sure to inc ude our eedback and he ping ame f outed Let me know how ou would l ke to p ocesd

- Mescalero Sheldon RMP-A DEIS/NOI Farmington New Mexico (DTSF 12622)

09-09-16 Received by ads up that DTS is routing through WO speed review requested by WO100 WO400/410 not included in DTS # 12622 outing a though the Old Spanish Trail and wilderness characteristics and impacts to the BLM? From a "and gas perspective" the survey of

In the RMP-A EIS moves areas of interest elsewhere impact analysis, etc.) WO-410 in Espanola quote to ensure that the National Conservation Lands units are adequate systems derived

- The BLM's proposed systems for areas of interest and gas, leases and really, vegetation management and lands with wilderness characteristics
- Potential impacts to the Old Spanish Trail and wilderness characteristics in the BLM's full range of actions for the BLM's full range to include the scope of amendments & impacts to the BLM? From a "and gas perspective" the survey of

In DTSF 12622 I am amended review (or going and not on public) held Feb 2016? Not opens scoping period but not held identifying public comments and issues areas of interest in the BLM's area of the 5 or so fossil energy development areas. The amended NOI does not revisit or alter the BLM's 2014 scoping report /revisit

- The 2014 NOI announced the Federal Register File (FOI) intent to amend the 2008 RMP to account for impacts not previously considered in the 2008 Resource Development Scoping Report (RFD)
- The RMP A project encompassed our decisions upon oil and gas lands and vegetation management and lands with wilderness characteristics
- Land use planning-mode decisions for other resources are outside the scope of this RMP-A review to 2016 NOI) however, other affected resources and uses will be analyzed e.g. National Conservation Lands unsuitability be affected by amended oil and gas decisions
- Focused impacts to the Old Spanish NHT were identified during the scoping period in 2014 (see Scoping Report)
- The RMP A/EIS will account for this second ugly through air resource development impacts assessment etc)
- The 2016 amended NOI announces that the BLM is coming the effort as a joint lead AND that the BLM intends to use the EIS to inform decisions related to BLM-managed resources

National Conservation Lands: a WO admin review of the GSENM DRMP-A DEIS scheduled for January 30 through Feb ruary 20 will hold Town Hall ing sessions on January 31. After reviewing the review files from WO210 I will show a them along with a WO410 comment form on google drive WO410 comments and provide a voice y

All: on and Rob can you provide an weekly-or-bi-weekly-to-the-following questions from our review of the GSENM DRMP-A/DEIS to help guide WO410's review?

General
Are all National Conservation Lands units and other designations adequately accounted for? Are there any gaps or omissions identified in the RMP the National Conservation Lands units and other designations? If not, is there a standalone portion that units?
Are there gaps or omissions identified for future and proactive actions that impact National Conservation Lands units and other designated special areas?
Are appropriate land use allocations and or management actions identified in the RMP that limit or exclude and/or actions that are incompatible with the management of National Conservation Lands and other designated special areas ?
Has the State Director been invited on RMP site visits, public comment guiding National Conservation Lands units within wilderness characteristics and Scenic River segments and risk-under study or recommended as suitable for designation?

National Monument/National Conservation Areas and Similar Designations
If this is a combined RMP is the a unique set of decisions specific to the NM NCA?
Does the RMP identify the resources, objectives and values (ROV) for which the NM/NCA was designated and how these ROVs will be managed?
Are all land use planning decisions in the RMP consistent with the purposes and objectives of the designating proclamation Act of Congress that established the NM NCA?
Are new activities or uses or ROVs in the NM/NCA identified in land use exclusion or avoidance areas ?

Lands with wilderness characteristics
Does the FO have a complete inventory of lands with wilderness characteristics?
Is an inventory report included as an Appendix?
Are decisions made for all individual wilderness characteristics units or bundles of units?
Is/Were an included and discussed in the NEPA process the other multiple uses which engaging management in protections, reduce impacts to wilderness characteristics will occur and wildlife resource characteristics will be maintained?

Eligible and Suitable WSR
Did the FO complete WSR eligibility inventories consistent with BLM policy requirements MS-6400?
Did the FO complete suitability evaluations and determinations consistent with eligible streams using factors and criteria from M6400?
Are suitable nonsuitable decisions made for all WSR eligible streams in the planning area?
Is the WSR Study Report included as an Appendix and is it consistent with current policy?
For segments determined not suitable do other resource allocations protect river values and/or is risk analysis provided for not protecting the river values specially if implements lands of the RMP will degrade or eliminate those river values?

National Scenic and Historic Trails
Is the not analysis all management corridor and or action included in the alternatives?
Does the plan include ability not necessarily and accessible management actions, studies uses and restrictions to safeguard the nature and purposes of the trail ?

Other RMP Issues
Does the RMP include any unique issues e.g. associated settlement agreement) or background (e.g. anomalies included in a National Monument proclamation) that affect the area beyond the national scenic
Summarize how the unique issues or background could affect the alternatives

Please let me know if you would like to discuss. Thanks, Bitsa

National Conservation Lands in WO admin review of the GSENM DRMP-A DEIS scheduled for January 30 through February 3 on Wednesday 31. After reviewing the review files from WO210 I will share them along with a WO410 comment form on google drive WO410 comments and provide a
All land Roll can you provide answers to the following questions from our review of the GSENM DRMP-A/DEIS to help guide WO410's review?

General
Are all National Conservation Lands units and other related areas that are located within the planning area designated within the RMP the natural resources? If not, is there a standard one pager for that unit?
Are management actions and decisions identified for future and/or actions that impact National Conservation Lands units and/or designated special areas?
Are appropriate land use allocations and/or management actions identified in the RMP that limit or exclude and/or actions that are incompatible with the management of National Conservation Lands and other designated special areas ?
Has the Science Director been involved in RMP activities and decisions regarding National Conservation Lands and within wilderness, characteristics, eligible and suitable preliminary designation) WILD and Scenic River segments and rivers under study or recommended as suitable for designation?

National Monument/National Conservation Areas and similar Designations
If this is a combined RMP is the a unique set of decisions specific to the NM NCA?
Does the RMP identify the resources, objects and values (ROV) for which the NM/NCA was designated and how the ROVs will be managed?
Are all land use planning decisions in the RMP consistent with the purposes and objectives of the designating proclamation or Act of Congress that established the NM NCA?
Are new stipulations or KDWs in the NM/NCA different than existing decision or avoidance areas ?

Lands with wilderness characteristics
Does the FO have a complete inventory of lands with wilderness characteristics?
Is an inventory report included as an Appendix?
Are decisions made for all individual wilderness characteristics which will be planning areas?
Is/Were any decisions included or discussions to (1) emphasize other multiple uses, 2) emphasize other multiple uses while applying management prescriptions or actions, and/or (3) protect wildlife resources/characteristics or other multiple uses?
Is a table included that summarizes decisions and resources found to have wilderness characteristics and a rationale for each of the categories identified in BLM Manual 6320 which include 1) protection of lands that fall within each of the categories identified in BLM Manual 6320 which include 2) emphasizing other
reduce impacts to wilderness characteristics will occur and while resource characteristics will be managed?

Eligible and Suitable WSR
Did the FO complete WSR eligibility inventories consistent with BLM policy requirements MS-6400 ?
Did the FO complete suitability evaluations and determinations for a 1 eligible stream using factors and criteria from M-8351?
Are suitable nonsuitable decisions made for a 1 WSR eligible streams in the planning area?
Is the WSR Study Report included as an Appendix and is it consistent with current policy ?
For segments determined not suitable do other management actions protect the river values, and/or is rationale provided for not protecting the river values, specially if implementation of the RMP will degrade or eliminate those river values?

National Scenic and Historic Trails
Is the national trail management corridor also included in the alternatives?
Does the plan include objectives and actions related management actions, authorizations and restrictions to safeguard the nature and purposes of the trail ?

Other RMP Issues
Does the RMP include any unique issues, e.g. associated environment agreement or background (e.g. anomalies included in a National Monument proclamation) that affect the area natural?
Summarize how the unique issues or backgrounds affect the alternatives

Please let me know if you would like to discuss. Thanks. Britta

All on and Rob can you provide an we s ers h of the fo lowing quest ons from our review of the GSENM DRMP-A/SDES to help guide WO410 s review?

General
Are all No ional Conse vat on Lands un ts and other ela ed or as hat are locat d wi hin the p ann ng ar a dent fi d and the managem nt add essed in in the RMP he rat ves? If not s there a tand-a one p an for that unit?
Are m ngat on s and ands ident fied for future e and u e ac ie t ec that impact National Con erval on Lands units and how re ated pecia areas?
Are appropr ate land use al ocat ons and or management s tions identified in the RMP that limit or exclude and u e ac ie t ec that are incompatible with the management of No ional Conse vat on Land uni s and other re ated special area ?
Has the S ate Dire tor been b ie ed on RMP a te rat ves nd dec ons r garding Nat onal Conserva ion Lands and s with w lderne s haracte i ti s eligible and su tab e pre designa ion) W d and Scenic R ver segmen s and ra ls under study or recommended as suitable for des gnat on?

Nat on I Monumen s/Nat onal Conserva ion Areas and S m lar Des gnat ons
If No, a combined RMP is the e a unique set of dec ions spe i ic to the NM NCA?
Does the RMP identify the resource s objec s and ises (ROV) for which the NM/NCA was de igna ed and how he e ROVs will be m n ged?
Are all land use p anning dec sions in he RMP consistent wi h the purposes and objec ives of the des gnat ng pro lamat on or Act of Con ress that es ablished the NM NCA?
Are new st ttys cor ridors or ROWs in the NM/NCA d n i ended as exc usion or avoidance areas ?

Lands with w derness chara ter st cs
Does the FO have a complete upda ed inventory of lands with wilderness characteristics?
Is an inv n ory report included as an Appendix?
Are deci sions made for a 1) ndividual wilderne s cha acte ic s; or 2) ne ther mu ti ple uses
Is / Ranca inc uded and cl ses no to 1) emphasize other multiple uses 2) emphasize other multiple uses where aggregating management m tr ct ons o educe impac s on wilderne s h racte ic s; and/or (3) protect wilderness characteristics or other multiple uses?
Is a tab e inc ud d that summa izes ac es inventoried as not found o have wilderness characteristics a rea and he per entage of lands that fa l wi h in each of he ca egories dent f ed in BLM Manual 6320 wh ch include 1) protection of lands with wilderne s haracte i ti s as a pri ori y o er o her uses 2) emphasizing other reduce impacts on wilderness char cter st cs wi l occur and while nes character (na ll be ma nta ned?

E g ible and Su tab e WSR
Did the FO complete WSR eligibility inventories consistent wi h cu rent policy requirements MS 6400 ?
Did the FO complete suitability evaluations and determinations for s l e g ible st ems using factors and criteria from M6400?
Are suitable manual able deci sions made for a 1 WSR eligible streams in the planning area?
Is the WSR Study Report included as an Appendix and is it consistent with current policy ?
For segments determined not suitable do other re ou ce allocations protect the river values and/or is re lana p ovided for not prot ct ng the river values specially f implementation of he RMP will degrade or eliminate those river values?

Nat on I Scenic and re c o ic Trails
Is the not onal t ail management plan current and included in the al ernat ves?
Does the plan include objectives and actions nec ssary and appropriate for achieving the purposes of the trail ?

Other RMP Issues
Does the RMP include any unique issues e g issues stated on filement agreement) or background (e g anomalies included in a Nat onal Monument pro lamat on) that affect the a te rat ves?
Summarize how the unique issues or backg ound s fect the a ternatives

Please let me know if you would like to discuss Thanks Bi ita

Nat on l Conserva ion Lands: a WO admin rev ew of the GSENM DRMP-A DE S s cheduled or anuary 30 hrough Feb uary 20 wi h a kl k o f b le ing schedu ed or January 31 Aft r ecei ing the rev ew f ee rom WO210 I wi l sho e hem along w th a WO410 comment form on google dr ve WO410 ommen ed p ewsucy

All on and Rob can you pro vide am we k o ea h of the fo lowing quest ons from our ewiew of the GSENM DRMP-A/DEIS to help gu de WO410 s ewiew?

General

Are all Na ional Conse vat on Lands u n ts and other ela ed ar as hat are locat d wi hin the p ann ng ar a dent fi d and the managem nt add essed in th RMP he nat ves? If not s there a tand-a one p an for that un t?

Are m t gat on s andards ident f ed for fu tu e and u e ac iv t es that impact Nationa Con ervat on Lands u n ts and a her re ated pecia areas?

Are appropr ate land use al ocat ons and or management s tions dent f ed in the RMP that limit or exc ude and u e ac iv t es that are incompat ble w th the management of Na ional Conse vat on Land uni s and other re ated spec al area ?

Has the S ate Dire tor been b ie ed on RMP a te nat ves nd dec s ons r garding Nat onal Conserva ion Lands and w th w lderne s haracte r is t ics eligible and su tab e pre designa ion(W d and Scenic R ver segmen s and ri s under study or recommended as ui able for des gnat on?

Nat on l Monument s/Nat onal Conserva ion Areas and S m ilar Des gnat ons

If Nis s a comb ned RMP is the e a unique set of dec s ons spe i ic to the NM NCA?

Does the RMP dent fy the resoucr s objec s and atues (ROV) for which the NM/NCA was de signa ed and how he e ROVs will be m n ged?

Are all and use p anning dec sions in he RMP cons stent wi h the purposes and objec ives of the des gnat ng pro lamat on or Act of Con ress that es abl shed the NM NCA?

Are new ut lity cor idors or ROWs in the NM/NCA d n i ied as exc usion or avoidance areas ?

Lands w th w dernes characteristics

Does the FO have a complete upda ed inventory of ands w th w ldernes characteristics?

Is an inv n ory report included as an Appendix?

Are deci sons made for s 11 nds wi h wi dernes s cha acte ic ics wi hin the planning a ea?

Is r tionale included or d cis ons to (1) emphasize other mu tiple uses, 2) emphasize other mu ti ple uses, wh e aqu y ng m nagement w tr ct ons u educe impac s o w ldernes s h racte ic ics and/or (3) pro ect w ldernes characteristics or other mu ti p e uses?

Is a tab e nc ud d that summa izes ac es inven o ied a nes found o have wi dernes cha acter i ics a res and he per entage of lands that fa l w h in each of he ca egor es dent f ed n BLM Manual 6320 wh ch nc ude 1) pro ect on of ands w th w ldernes s haracte i S s as a pr ori y o er o her uses 2) emphasizing othe reduce impacts o wi dernes char cter st cs wi l occur and w ldernes characteristics w ll be ma nta ned?

E ig ble and Su tab e WSR

Did the FO complete WSR eligibility inventories cons stent wi h cu rent policy requirements S MS 6400 ?

Did the FO complete suitability eva uations and determina ions for s l e ig ble st ams using actors and cr ter a from M4400?

Are sui able nomina able deci sions made for s l WSR eligible streams in the planning a ea?

Is the WSR Study Report included as an Appendix analis t on is ent w th current pol c ?

For segments determined not sui able do other re ou ce al ocat ons p otect the r ver va u e, and/or is ra ionale provided for not prot ct ng the r ver va ues specia y f implementa ions of he RMP wil degrade or el m nate those r ver va ues?

Nat on l Scenic and H s o ic Tra s

Is the nat onal t ail management co r dor a o st on included in the al ernat ves?

Does the p an nc ude ob ect ves and ac ons ed management ac ions a ownb e uses and estr ct ons to safeguard the natu e and purposes of the tra ?

Other RMP Issu s

Does the RMP include any unique is ues e g assoc ated ce tlement agreement) or background (e g anomal es inc uded n a Nat onal Monument pro lamat on) hat aff ct the a te nat ves?

Summar ze how the unique is ues or backg ound a fect the a ternatives

Follow up to update re review of Section 368 Energy Corridor Region 1 Recommendations Report

Nelson, Britta <bnelson@blm.gov>
9:31 AM (4 hours ago)

to Sally, Peter, Timothy, Robert, Cathie, Deborah
National Conservation Lands Programs, another coupe updates on the Section 368 Energy Corridor Region 1 Recommendations Report follow. First the 368 Corridor Team has indicated we can expect to see the draft report to review on March 27

Next in response to Bob's question about GIS layers the corridors and National Conservation Lands to have been mapped on the on the 368 mapper found at http://bsg.evs.anl.gov/section368/ports/ or we can request the GIS layers. If you would like the layers please let me know and we'll follow up
