Randy,

document id: DOI-2017-0002-685179
is claiming "20,724 WWF-US supporters". The document has a spreadsheet with 20,734 names, states, and zip codes.

I am coding it as "(1) Mass Mailing" since we're taking them at their word, but it wouldn't surprise me if they did a dump of their membership database... which if I was a member wouldn't be happy to have my personal information disseminated.

Anyway, I'll put it in the spreadsheet for you.
No reply needed, just letting you know.

The comment that shows in the individual record when you open the cluster says how many comments are attached, at least in this cluster.

Thank you - there are larger ones out there yet

This is a spreadsheet claiming 25,643 individual names and addresses. Coded as (1) Mass Mailing. Just bringing to Randy's attention if needed.

Same exercise. Looking for mass emails and creating an annotation with the number.
