Yes. I did not interpret the Aug 8 email as requiring any further review, but sent it to Downey in the expectation she would want to see it, which she did. Once she cleared it on the 10th I believed it was good to go. Emily subsequently told me you wanted a transmittal letter or memo, which I presumed could catch up with the material itself. NOAA needed the information promptly to meet their internal deadlines, and we have been working very cooperatively on the review. Things have been extremely hectic the last week or so, and I failed to let you know I sent it as a result.

>> A belated update on this. After receiving your note below, I asked Downey if she wanted to review and she did. She cleared the material on the 10th. I then sent it to NOAA, as they were waiting for it to complete their own responsibilities under the 2 reviews. Michael Weiss told me a few minutes ago he had some follow-up questions, and I then realized I had not advised you that I sent it. I told him to go directly to BOEM with those questions.

My understanding is that this would normally not go through the Exec. Sec. process, but for this document, I defer to Randy Bowman, as I believe he is coordinating this for the Department.

Walter

At Kate's request, we will also be including a copy of the comments we sent to NOAA on the DEIS for the Flower Garden Banks NMS proposed expansion (attached - note that NOAA does not consider this within the scope of the EO tasking since no decision has been taken on the expansion). Please let me know if you have any comments by Friday, August 11.
