Subject BLM draft environmental report on "SNWA Project" LCLA Groundwater development

I oppose this $3 to $4 Billion dollar SNWA pipeline and well project. I believe the springs and water table near the wells will be impacted negatively. I support a desalination project similar to the California projects now being planned and constructed. If the groundwater and well project can not be stopped, I recommend more monitor wells then now proposed, a minimum of 4 monitor wells per groundwater well.

Sincerely,

Daniel Wilson
