All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, are available for public inspection in their entirety.***

I support New Mexico Copper's plan to re-open the Copper Flat mine. I have read the Draft EIS prepared by the BLM and feel that this document does a good job in analyzing the project from an environmental perspective, clearly identifies the issues that will occur, and properly lays the groundwork for necessary environmental protection measures. I feel the BLM has been thorough in their work and has provided sufficient time for the public review process. I wish to thank the BLM for their effort and dedication and look forward to timely completion of the review process and a favorable decision that allows the project to proceed.
