REC'D - BLM - NSO
9:00 A.M. OCT 18 2011

To: Penelope Dunn Woods
Nevada groundwater Projects office.

From: Allen Moss, Rep.
Western Shoshone National Council:

Some Questions that we Have;

1- Reparation Rights

2- Natura Rights (First use)

3- Recycle the used water From Las Vegas (Billion cheaper)

4- Development + Research to use 4.6 Trillion gallons of water from the test site

5- Not to create another Mono Lake effect in Eastern Nevada, for the wildlife + plants & Farmers

6- the destruction of thousands of Acres of Pinyon + Juniper trees to power the Electrical water pumps to push the water to Las Vegas; Also with the Removal of the trees "the downwinder" effect of Radiation, with How many people will die from this?

7- With the Reduced population in Las Vegas the need for water is less

8- Perhaps less waterworks shows + swimming pools, would cut the Need?

PENELOPE, PERHAPS you could get these QUESTIONS ANSWERED?

ONE LAST QUESTION is, with NO CLASS 3 INVENTORY (ARCHAEOLOGY) WHY ISN'T it in the ELKO RMP?

thank you

Allen Moss
