To Product Manager, Brian Anne

Dear Brian,

We are writing in regards to the aerial spraying of the states. We have a cabin in Colorado. It is in the small mining town of Platoro about 73 miles from Alamosa. (off of Hwy. 17th going to Chama N Mex)

Both Don and I support Option "C" ~~as~~, an alternative to the spraying which is so harmful to people and the wildlife.

Sincerely,

Mary Burrell
