Dear Mr Amme,

1 Please note that I am deeply disturbed that your project is considering subjecting me personally to aerial spraying of toxic pesticides while I enjoy my public lands.

2 I have reviewed the proposal and wish you to follow Option 3 (c), alternative control methods other than pesticides or any chemical applications weather aerial or not.

3 thank you for your decision to respect the rights of the people of this country to be free from toxic chemical assult.

Sincerely

Ron Sutcliffe
