JOPLIN, MISSOURI 64801

FRED G. PUGH
MINISTER

STUDY (417) 623-2390
PARSONAGE (417) 781-8822

To Whom It May Concern:

1 It has come to our attention that there is a strong possibility aerial herbicide spraying will begin soon in 17 states on our National Forests and Monuments. We are protesting this action and requesting an alternative and environmentally safe product be used that does not threaten the health and safety of numerous people.

2 After exposure to herbicides in the work place, we know from personal experience and illness that these chemical pose serious health threats to many people. Our congregation can attest to the illness chemical exposure can cause and did cause to our family. Please reconsider aerial spraying with herbicides.

Sincerely Yours,
Fred and Sandra Pugh
