
H:\13655 PAPA\5000 GIS\cadpro\data_gaps_fall_2010\Xsec_Hydrostratigraphic_Update.dwg

Geologic Units
- Gravel
- Sand & Gravel
- Sandstone
- Shale/Siltstone

Stock Well — Typical Well and Perforated Zone

Perched Groundwater in Shallow Wasatch HSU

Wasatch HSU Potentiometric Surface

(HSU - Hydrostratigraphic Unit)

Typical Well Depths
- Stock Well = 150-220 feet
- Domestic Well = 70-120 feet
- Industrial Well = 600-700 feet
